ABOUT ME

My name is Emre Okçelen. I am taking education on Computer Engineering in Marmara University for Bachelor's degree (I am 3rd year student in Marmara University) and on Graphic design in Istanbul University for Associated degree (I am 1st year student in Istanbul University). I consider myself as a hardworking, friendly human being and I believe that I am capable of working in a team environment. I aspire to continue my career in Game development and design, I am open to opportunities to work on new projects.

PROJECTS

Portfolio

During the semesters, I had a chance to develop on different projects with different programming languages. These projects, really affected on me to enhance my algorithmic thinking and gave me chance to gain different customer's perspectives while creating UI/UX designs and methods. Also currently i am aiming to give my full focus on Unity game development, therefore I would be delighted if you could review my game projects on my Github account.
